

Welcome to the HiMama Family!

Dear Parents,

We have some very exciting news to share with you, we have decided to join the HiMama family! With HiMama, you will be able to receive updates about your child's day, including pictures and videos. Then you receive the complete daily report at the end of the day electronically, so that you can enjoy it whenever, wherever you are!

In the next few days, you will receive an email from HiMama asking you to log in and join the program. Please take a minute to log into your account so that you can start receiving updates and make sure your child's information is correct.

With HiMama you'll be able to:

- Download HiMama's free parent app (iOS & Android) so that you can check in during the day
- Receive updates throughout the day about your child's activities.
- Add crew members and customize their access so that other family members can be involved in your child's day from anywhere!
- Send messages to your child's classroom and comment on pictures of your child
- Record milestones in your child's development!

Over the next few weeks you can expect to see more and more updates in HiMama about your child's day!

I hope you are as excited as we are to take our center's communication to the next level!

In the meantime, you can find more information about HiMama at www.himama.com.

Remember, HiMama's Support Team is here if you have any questions about your account, email them at support@himama.com!
